Oakwood Park Water Main Construction to Begin in July

Dear Valued Customer,

The City of Norfolk Department of Utilities has hired Suburban Grading to replace an aged and undersized water main along the areas shown on the map to the right.

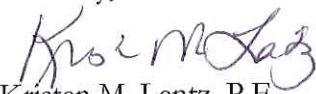

This project is scheduled to begin the week of July 9th. The project is expected to be completed by Fall 2012 and will improve water pressure and add two fire hydrants.

Neighborhood access and water service will be maintained throughout construction, although some on-street parking will be restricted in the immediate work zone.

The City and our contractor will do our best to minimize the unavoidable disruptions associated with the construction. If you have any questions or concerns, please do not hesitate to contact the City's on-site construction inspector, Mr. Chris Ball. He may be reached by cell phone at 374-0127 to respond quickly. You may also contact the project manager, Ben Tokarz, at 664-6735.

The Department of Utilities looks forward to completing this project which will enhance your water service for years to come.

Sincerely,

Kristen M. Lentz, P.E.
Director of Utilities
